*When routes were planned by the location of water sources.*

Join the Flagstaff Public Library for an evening with Jim Babbitt and a glimpse back in time through 100+ year-old maps. These newly restored maps were carried on horseback by the Babbitt brothers and ranch employees during their early days of grazing cattle on the open range, and every tear and water stain tells a story.

***Tuesday, December 12th, 2017 @ 6:00 pm. Downtown Library.***

Original maps will be on display and map replicas will be for sale by the Friends of the Flagstaff Public Library.
